We share a sea. Diet for a clean Baltic

Pages 16-21. A trip to the sea

1. What's the name of the agreement signed by all the countries around the Baltic Sea in order to improve the marine environment?
2. What is the size of the dead bottom area in the Baltic Sea?
3. What is meant by "brackish water"?
4. Why is the marine environment in the Baltic Sea in such a poor condition?
5. Give examples of plants growing in the sea.
6. Poul Elo explains about seven types of fish living the Baltic Sea. Mention their names.
7. How do fish breathe?
8. What happens if too much manure – or too many nutrients – is washed out into the sea?
9. How does oxygen depletion occur?
10. What happens if there is too little oxygen in the sea water?
